

Coordinating Your Care

At OBGYN By the Sea, we pride ourselves on providing personalized care to women in the Broward area. Our team is always here to help with all your obstetrical and gynecological needs.

As a group of four Obstetricians, one Gynecologist and one Nurse Practitioner, we try to collaborate on all patient care and coordinate our availability as best as possible. As of January 1, 2020, we have partnered with Envision OB-GYN Hospitalists to provide utmost care for you and your baby.

The American College of Obstetricians and Gynecologists highlight the importance of having hospitalists become a part of the health care team. Hospitalists are Obstetrician-Gynecologists that help care for gynecologic and obstetric patient and manage any emergencies that can occur in the hospital. Envision OB-GYN Hospitalists are licensed and credentialed at Broward Health Medical Center and we are lucky to have them supporting us at the hospital when we are not available. Partnerships like this have been proven nationwide to be the best scenarios to not only significantly reduce the rate of cesarean deliveries, but to also improve quality of care and patient satisfaction.

What does this mean for you

Your prenatal care will occur with your preferred Obstetrician in the practice, along with the support from our experienced Nurse Practitioners. Additionally, our four providers will continue to perform vaginal deliveries and scheduled cesareans, but we will be operating with the back-up of the Envision OB-GYN Hospitalists at Broward Health Medical Center.

We are happy to be working with the team at Envision OB-GYN Hospitalists and trust that they will provide exceptional care for our patients.
