

Daily Anasept Instructions

1. Remove the dressing.
2. When you shower use **one towel** to dry your body, and **a different towel** to dry your wound area.
3. Pour Anaspept Wound Wash into the wound area.
4. Let it sit for **5 minutes**.
5. Dab with gauze to absorb any excess that has not been absorbed by the tissue.
6. Apply Anasept Wound Gel into the wound, and be careful **not to get onto the healthy tissue**.
7. Place dry gauze over the wound and hold it in place with tape.
