

We take the safety of our patients and staff very seriously. We are adapting our office procedures as-needed during the Covid-19 pandemic. Please read the details below before your next visit.

Masks

All adults and children older than 4 years must wear a mask when inside our building at all times. Our (fully vaccinated) staff will also be in masks at all times.

Children 2-4 years old should be encouraged to wear a mask.

Please DO NOT remove your mask in the exam room.

If you do not have a mask, one will be provided for you.

If you are wearing a mask with an exhalation valve, you will be asked to change to another style or cover the valve with another mask.

Other Considerations

We are limiting each visit to **one adult per child**; other adults will be asked to wait in their car. The only exception is for newborn visits, when both parents will be allowed.

Please **do not bring siblings** to an appointment unless there is absolutely no alternative.

Please use hand sanitizer or a sanitizing hand wipe when you enter the office.

Exam rooms, equipment, door knobs and light switches are sanitized between patients

Our waiting room is in very limited use. You will be immediately escorted to an exam room. If no room is available, we will ask you to wait in the car until one is.

Our sign-in sheet, coloring pages, toys, and stickers have all been put away. Please bring your own toys if necessary. Feel free to ask for a sticker or prize at the end of the visit though!
