HPV TESTING NOTICE

Human Papiloma Virus or HPV is a group of related viruses, some of which cause genital warts. HPV is one the most common sexually transmitted diseases. Some, which cause types of HPV that, are associated with cancer of the cervix. In some cases, the viruses cause changes that cannot be seen with the naked eye.

Our practice is making the HPV test available to all patients. As you might expect, your insurance may not reimburse for the cost of the HPV test. We cannot however, bear the cost of this exam and therefore do not accept assignment or bill your insurance for this lab test. If you like the HPV test, the cost will be \$90.00 in addition to any regular charges for today's visit.

Because of the lack of insurance reimbursement, we can only offer this test to those patients who are willing to pay. Please indicate if you would like to have the HPV test, by checking YES or NO below.

"check box" YES

"check box" NO
