What Can I Eat?

Diet for gastric reflux

The foods you eat affect the throat. Eating the right kinds of food is key to controlling inflammation. Below is a list of foods that are considered helpful for controlling throat inflammation and irritation. Focus on what you can do and eat (don't focus on what you shouldn't do or eat). Eat the largest meal in the morning, reasonably sized lunch, and smaller dinner. Avoid eating or drinking within 3 hours of laying down.
