

Dear Valued Patient,

Dr. Hara Berger, our on-site Endocrinologist, will be leaving Women's Health Partners to start [LiveWell Endocrinology](#), an endocrinology and wellness center in Boca Raton. We will miss Dr. Berger at Women's Health Partners but wish her all the best in her next adventure.

Why is Dr. Berger doing this?

Dr. Berger values deep connections with her patients – both personally and clinically. Her new practice will have a boutique feel and a personable and relaxed environment. Dr. Berger will spend as much time as needed with her patients and patients will be able to easily communicate with the office. LiveWell Endocrinology will also have a holistic approach and will offer wellness services including nutrition and personal training.

Direct Care Model

[LiveWell Endocrinology](#) will follow the direct care medicine model which allows the practice to run without the involvement of third-party insurance companies. ***Visits and services will be cash pay, however patients can get out-of-network reimbursements from their insurance and may be able to recover a portion of the visit fees depending on their policies*** (see [LiveWell Endocrinology](#) website to verify your out-of-network benefits). ***Lab tests, imaging studies, and medication prescriptions will still be processed through insurance.***

Transition Dates

Dr. Berger will be leaving Women's Health Partners in September and LiveWell Endocrinology will launch in November 2024. If you have any issues during the transition month of October that are time sensitive, please call Dr. Berger's new office so she can accommodate you.

If you have an appointment through the end of September, you will be seen by Dr. Berger at Women's Health Partners.

If you have an appointment with Dr. Berger at Women's Health Partners from October and onward, please call Dr. Berger's new office to make an appointment at her new office. We will also be calling you over the phone to advise you of this.

Appointments

New patients will be accepted at LiveWell Endocrinology. Existing patients of Dr. Berger who have been seen in the last two years can move to her new practice at follow up rates.

To schedule an appointment, please call (561) 872-7685 or visit the website at www.livewellendocrinology.com.

Dr. Berger is very excited to open LiveWell Endocrinology and continue to do what she loves- provide the best care to her patients. We hope this transition is as smooth as possible for our patients. Please let us know if you have questions or concerns.

Warmly,

Women's Health Partners
