

EMERGENCIES

Dear patient,

If you are pregnant and have a medical emergency:

- If you are less than 20 weeks pregnant, proceed to the Emergency Department at Memorial Hospital Miramar.
- If you are more than 20 weeks pregnant go directly to Labor & Delivery at Memorial Hospital Miramar.

All non-pregnant patients should contact your Primary Care Physician first.

Please note: Dr Bratter has no control over the wait time in the Emergency Room. Please do not call our office again once you have been instructed to go to the ER. The doctor in the ER will evaluate you and he/she will notify Dr. Bratter. All you need to do is give the name of Dr Bratter upon your arrival to the ER.

Thank you for your cooperation.
